

Moraga-Orinda Fire District

Prohibited Plant List

Fire prevention is of the utmost importance in the Moraga-Orinda Fire District. The rich vegetation and hot, dry summers can create an environment that is highly susceptible to wildfire. Refraining from planting highly flammable vegetation is critical in helping to reduce the speed at which wildfires can travel and spread.

Below is a list of disallowed vegetation within the Moraga-Orinda Fire District. If you have further questions regarding landscaping and fire prevention, please call 925-258-4525, Ext. 524 or visiting our website at www.mofd.org.

Abies Species
Acacia Species
Adenostoma Sparsifolium-Red Shanks
Adenostoma Fasciculatum-Chamis
Baccharis Species
Chamaecyparis Species- Except Dwarf
Cortaderia Selloana-Pampas Grass
Cryptomaria Japonica-Except Dwarf
Cupressus Species-Cypress
Cupressocyparis
Cytisus, Gentista, Spartum-Brooms
Dodonaea Viscosa-Hopseed Bush
Eriogonum-Buckwheat
Eucalyptus Species
Junipersus Species- Juniper
Larch Species
Metasequoia-Dawn Redwood
Miscanthus Species-Grasses
Muehlenbergia Species-Deer Grasses
Palms- All
Pennisetum Setaceum-Fountain Grasses
Picea Species-Spruce
Pinus Species-Except Dwarf Mugo
Schinus Species-Pepper Trees
Tamarix Species
Taxodium Species
Taxus Species-Except Dwarf
Thuja Species
Tsuga Species-Hemlock
